

Planning Our Vertical Garden

Your group will receive eight plots in the class' garden. Each plot is about 4 inches x 4 inches. Research a variety of plants that you and your group would like to include in your plots. Rank your preference from 1-8 (1 being your favorite) by writing numbers next to the plant names.

Plant Name				
Size: How large will it grow?				
How much water does it need?				
What light conditions are required?				
Does this plant require any special considerations?				
Other relevant information				
How much does it cost? homedepot.com lowes.com (also check for availability)				
Why is this plant ideal for air purification?				
Why is this plant ideal for a vertical garden?
